BUSINESS FROM COMMON COUNCIL.

C. C. No. 1057. Report of the Finance Committee April 11, 1903, transmitting sundry papers to Councils.

In Common Council April 13, 1903. Read, received and filed.

Which was read, received and filed.

C. C. No. 1058. Resolution authorizing the acceptance of the deed and payment of the purchase money for property at the easterly corner of Water and Short streets for the use of the Bureau of Fire.

Whereas, By ordinance approved January 28, 1903, the Director of the Department of Public Safety was authorized and empowered to purchase for \$60,000 for the use of the Bureau of Fire certain property on the easterly corner of Water and Short streets, fronting forty-six (46) feet on Water street, and extending along Short street, preserving the same width one hundred and sixty (160) feet to First avenue and appropriation of certain moneys was made for the payment of the purchase money therefor; and,

Whereas, the title to said property appears, upon examination, to be good so far as the records show, but a survey of the ground discloses that the wall of the adjacent building extends $\frac{3}{4}$ inches over the line of this property at the First avenue end and the building on this property extends $\frac{3}{4}$ of an inch over the line at the Water street end, for which reason the City Controller is in doubt as to his power to accept the deed; and,

Whereas, the purchase of said property is most advantageous for the city; the use of same is at present most urgently needed by the Bureau of Fire and the mislocation or encroachment of said wall does not affect the use or value of said property; therefore, be it

Resolved, By the Select and Common Council that the City Controller be and is hereby authorized and advised to accept the deed and pay the \$60,000.00 purchase money for the said premises and secure possession of the same for the use of the Bureau of Fire as speedily as possible.

In Common Council April 13, 1903 Read and adopted.

The Chair said:

"Gentlemen, it is three-quarters of an hour beyond the time the Chair called this meeting, and perhaps I ought to tell you why I called it. Many members of this body and many members of Common Council from both parties, newspaper men and citizens at large urged upon me the calling of this meeting for the purpose already expressed in the newspapers. At this urgent solicitation by parties already referred to in various walks of life, both official and unofficial, I have called this

meeting. I am told that standing down on the stairs by the door are people keeping members away who should be here. I don't know if it is true, but I have heard it from half a dozen different parties. If it is true it is a shameful proceeding. We haven't a quorum, but you have the power to adjourn this meeting to any time you please."

Mr. Upperman moved

That Council take a recess until eight o'clock this evening.

The time for the recess having expired, the Council reconvened, and there were

When the Clerk called the name of Mr. Fleming, in calling the roll, Mr. Stewart arose and said:

"Mr. **Fleming** is present; his hat is here and he is now in the lobby and will be in shortly."

The **Chair** said:

"If Mr. **Fleming** is here in the chamber, or in the lobby, the Clerk will mark him present."

The **Chair** said:

"There are 19 members present, what is your pleasure, gentlemen?"

Mr. **Benz** moved

That Council do now adjourn.

Mr. **Atkinson** moved to amend

"That Council take a recess for ten minutes."

Mr. **Rothweiler** came in at this time, and the **Chair** ordered the Clerk to call the roll.

Which was done.

And there were

Present—Messrs.

Atkinson	Rothweiler	Upperman
Benz	Ruhlandt	Voskamp
Booth	Sankey	Wainwright
Diehl	Schneider	West
Murphy	Shenkel	Wilson

The **Chair** said:

"There are but nineteen members present, gentlemen."

Mr. **Upperman** arose and said:

"Mr. **Fleming** was here, but some parties connected with the Police Department of the City of Pittsburgh came and took him away."

The **Chair**:

"Name them, please."

Mr. **Upperman**:

"Mr. **McTighe**, Superintendent of the Bureau of Police, came in and took him away. He took him out into the reception room, and I believe against his own will forced him to go away from this building."

The **Chair**:

"Who is the other man?"

Mr. **Upperman**:

"Detective Shore is the other gentleman, I am told. I didn't know **McTighe** until I was told who the parties were. This meeting was called to introduce a bill for the purchase of a site for a great school to assist the young man of to-day, as well as the young man of the future, to fit himself to take a higher place in the world."

The **Chair** interrupted Mr. **Upperman** and said:

"I understand that Mr. **Fleming** is in the building. I direct the officers to go and bring him here."

Mr. **Upperman** continued:

"It gives them an opportunity to fit themselves to make their way in the world. This school is not alone for the rich, but for the poor boys as well. As one, who himself

had to work hard for an education as a boy, I can speak with a knowledge of the benefits to be derived from this school. I know how hard it was for me to get a little bit of an education. Here is a chance to throw in the way of every young man an opportunity to gain knowledge, and every one who has the ability to fit himself to take the highest position that may be offered in the great workshops of the City of Pittsburgh, and to think that city officials will come into this body and take one of its members out by force for the purpose of breaking a quorum, in order that the people of this city cannot accept this great gift of Mr. **Carnegie**. It is an outrage that ought not be overlooked.

"I think resolutions should be introduced into Councils calling upon the Mayor to discharge those people, who so far forget their official duty as to neglect the business of the city in order to break up a quorum of this body."

Mr. **Murphy**:

"Mr. **Chairman**, I rise to a point of order. The gentleman was here when the roll was called and there is a quorum. I ask the privilege of introducing an ordinance that I have here."

The **Chair**:

"If the gentleman was taken out of Council after the roll was called, we have no quorum. If the gentleman is not here, there is no quorum present."

The **Chair** said:

"The **Sergeant-at-Arms** has returned. Did you find Mr. **Fleming**?"

Sergeant-at-Arms:

"He is not in the building. He is outside of the building."

The **Chair**:

"Did you see him?"

Sergeant-at-Arms:

"No, sir; I did not."

The **Chair**:

"Did you get any instructions contrary to mine?"

Sergeant-at-Arms:

"No, sir."

The **Chair**:

"Nobody told you not to bring him in?"

Sergeant-at-Arms:

"No, sir."

Mr. **Atkinson**:

"I hear that Mr. **Fleming** is across the street in the Duquesne hotel. I move he be sent for."

Mr. **Stewart**:

"I move that a member of Council be asked to go with the **Sergeant-at-Arms** to see that he gets Mr. **Fleming**."

The **Chair**:

"I will send Mr. **Stewart**, who made the motion."

The **Chair** said:

"As the gentleman from the Fifteenth ward has suggested, no man who holds office, and who acts as the Superintendent of Police has acted, according to the charge made on this floor to-night, is fit for the position he holds, and should be removed instantly."

Superintendent of Police **McTighe**, at this time, came to the Council chamber, and in-

sisted on making an explanation to Council, but was refused permission to do so by the **Chair**.

Mr. Upperman said:

"I, myself, saw the Superintendent come in and take hold of **Mr. Fleming**, and others gave me the information that they took him away from this meeting."

Mr. Stewart, who accompanied the Sergeant-at-Arms, having returned, said:

"I understand when I retired to the rotunda that **Mr. Fleming** had left this portion of the building, and was at the Duquesne hotel, and was taken from there and placed in a buggy by Detective Shore, of the city detective force, and cannot now be found."

The **Chair** ordered the Clerk to again call the roll.

Which was done.

And there were

PRESENT—Messrs.

The **Chair** said:

"There are 19 members present; we need one to make a quorum."

Mr. Benz moved

That Council do now adjourn.

The **Chair**:

"I want to make a suggestion that some gentlemen who are now present prepare resolutions in relation to the gross outrage perpetrated on this body, for the meeting on Monday afternoon."

Mr. Upperman arose and said:

"I shall offer a resolution asking for a committee to investigate. I will have before that committee reputable gentlemen, whose word is as good as their bond, and who will give testimony as to the action of those officers."

And the motion as offered by **Mr. Benz** prevailed.

And Council adjourned.

SELECT COUNCIL.

JOHN S. LAMBIE.....PRESIDENT
E. J. MARTIN.....CLERK

PITTSBURGH, May 25, 1903.

Council met.

PRESENT—Messrs.

Atkinson	Booth	Donahoe
Barry	Costello	Douglas
Benz	Diehl	Fichtel

The Clerk called the name of Mr. **Fleming**, whereupon Mr. **Wainwright** objected to the name of Mr. **Fleming** being called.

Mr. **Wainwright** said:

"I object to Mr. **Fleming** answering the roll for the reason that he lives in the Fourteenth ward, and represents the First ward in Council. Under the new charter he forfeits his seat in Council."

Mr. **Douglas** said:

"I rise to a point of order."

The **Chair** said:

"State your point."

Mr. **Douglas** said:

"There can be no such objections on the call of the roll."

The **Chair** said:

"The **Chair** will postpone his decision until after the roll is called. Mr. Clerk, don't make any note of Mr. **Fleming** being present. Proceed with the call of the roll."

And the following members answered the roll:

Messrs.

Gallagher	Perry	Shenkel
Geary	Platt	Stewart
Hermes	Poke	Upperman
Jones	Rothweiler	Voskamp
Kearns	Ruhlandt	Wainwright
Lang	Sankey	West
Morgan	Schempp	Wightman
Murphy	Schlernitzauer	Wilson
O'Brien	Schneider	Zahniser

Lambie, President.

The Clerk announced 37 members present.

Mr. **Douglas** arose and said:

"I rise to a point of order. Will you tell me why you don't count Mr. **Fleming**?"

The **Chair** said:

"Objection has been raised by the gentleman from the Eighteenth ward, who says that Mr. **Fleming** does not live in the First ward."

Mr. **Douglas** said:

"There is no objection. I rise to a point of order."

Mr. **Upperman** said:

"The point cannot be raised until the gentleman states his position fully."

Mr. **Douglas**:

"Who has the floor?"

The **Chair** said:

"Mr. **Douglas** has the floor."

Mr. **Douglas** said:

"I rise to a point of order—that 38 members have responded to their names, and the **Chair** counts 37. I wish to state I wish 38 recorded, just as they were called."

The **Chair** said:

"It will not be recorded until we hear what the objection is."

Mr. **Wainwright** arose and said:

"I object to counting Mr. **Fleming**. I understand he is at present a resident of the Fourteenth ward, and made the declaration before members of this body at a meeting, and to a reporter of the press. The gentleman who represents this Council from the Fourteenth ward can attest where he lives." Mr. **Wainwright** then read the following from the Council Manual, page 108: "The removal of any member of Select Council from the ward, or of any member of Common Council from the ward he represents, shall forfeit the membership of such person, and his place shall be filled at the next regular municipal election occurring more than thirty days after such removal."

Mr. **Douglas** said:

"I insist on my point of order."

The **Chair** said:

"I rule the point of order not well taken."

Mr. **Douglas** said:

"I appeal from the decision of the **Chair**."

The **Chair** called Mr. **Benz** to the chair.

Mr. Douglas said:

"I wish the Clerk to take down the point of order I raise. I raise the point of order that on a call of the roll, where 38 members have answered to their names, the Chair has no right to record 37 only."

Mr. Lambie said:

"Mr. Chairman, we commenced to call the roll, and objection was raised to the recording of Mr. Fleming as present. The gentleman then raised the point that we were calling the roll, and that we couldn't be interrupted at that time. The Chair ruled we would proceed with the call of the roll, but suspend action as to Mr. Fleming until the gentleman raising the objection could be heard, and the roll was called. If the statement by the gentleman from the Eighteenth ward is correct, Mr. Fleming is not a member of this body. There is no question about it, and he has forfeited his seat. I don't know if this is a fact or not. I intended to call on the gentleman and ask him if it was true. I contend that is the mode of procedure. If he admits it, that is the end of it, and there is no further question about it. He forfeits his seat as a member from the First ward, and has no right to sit here, and is not a member of this body. I don't say he is, or not. The gentleman from the Eighteenth ward asserts it, and he has a right to make that statement and has a right to question the seat and vote on this point. I have no official information on the subject, and if he says he lives in the Fourteenth ward that is the end of it, and if he denies it, that is another question."

Mr. Douglas said;

"The absurdity of a lawyer, whether he is in court or whether he is standing on the floor of a parliamentary body, in the call of the roster of that body, undertaking to say that a member who has been regularly elected shall not be counted when he answers to his name, is something that I have never ran across all the days of my life. When he answers to his name as a member of this body, he has answered every question that Mr. Lambie has raised here. If he were not a member, he would not have answered to the roll."

Mr. Fleming attempted to speak at this time, but the Chair ruled him out of order.

The Chair (Mr. Benz) said:

"In all fairness, I will have to rule this appeal out of order."

Mr. Douglas at this time attempted to speak.

Mr. Lambie again took the Chair and said.

"You are out of order. There is no further debate on it. You have had your debate, and the Chairman can now ask the gentleman himself if he—"

Mr. Douglas, interrupting, said:

"I move that Mr. Wightman act as Chairman, as the Chair is vacant."

The Chair said:

"The motion is out of order."

Mr. Douglas said:

"I stand on my point of order, which you, as Chairman, have got to put to a vote before I leave the floor of this Council."

The Chair said:

"It has been decided."

Mr. Fleming arose and said:

"I understood the gentleman to say that I was a resident of the Fourteenth ward. I made some remarks in Council chamber that I thought possibly that I would move there. I always cast my vote in the First ward, and I consider it my residence, and I still live in that ward."

Mr. Douglas said:

"I stand on my point of order. I want the Chair—"

Mr. Benz, interrupting:

"You are out of order. I have the floor, and you have nothing to say, as you have had your say."

Mr. Douglas said:

"I rise to a point of order—that the question is not debatable, except by the Chair, and (turning to Mr. Benz) you have no right to speak, as big as you are."

The Chair said:

"You are out of order."

Mr. Benz said:

"This man is making a great big bluff, and is nothing but a big bluffer."

At this time several people tried to get the floor.

The Chair said:

"You are out of order, and unless order is preserved the Chair will declare the meeting adjourned."

Mr. Benz moved

That Council adjourn.

The Chair put the motion and declared Council adjourned.

The Chair directed the Clerk to notify Common Council that in pursuance of a motion made at the session of Council held this afternoon, that Select Council is now ready to meet with Common Council in Joint Session.

And Common Council was so notified.

The Clerk of Common Council having been introduced, announced that Common Council was now ready to meet with Select Council in Joint Session for the purpose of electing a City Clerk and an Assistant City Clerk.

Mr. Douglas moved

That Select Council meet with Common Council in Joint Session.

Which motion prevailed.

And Select Council proceeded to the Common Council chamber, and Councils being so met in

JOINT SESSION

For the purpose of electing a City Clerk and an Assistant City Clerk.

The Chair said:

"You all know the purpose of this Joint Session. The Act of Assembly provides that at the first meeting in April in each third year a Joint Session to elect Clerks shall be held. For various reasons, not necessary to state, it was not held at that time. You are assembled now for the purpose of hearing nominations."

Mr. Douglas arose and said:

"I nominate for City Clerk, Edward Wakefield Hassler."

Mr. Upperman arose and said:

"I rise to place in nomination the name of one who came into the City Clerk's office in 1883. He came not here at his own choice, but his father had died but a few months previous, and at the death of the father they found that the boy of fifteen years must become the head of the family. They looked about and they found him a position as mes-

senger to Councils. He served as messenger under George Sheppard. When Mr. Sheppard resigned the position of City Clerk and Mr. George Booth became his successor, this young man was made the Assistant City Clerk. He served under Mr. Booth, and to the credit of Mr. Booth, he early recognized the character and ability of this young man and took him under his care, and treated him as a loving father would treat his only child. When Mr. Elliott died, and the position of Director of the Department of Charities was offered to Mr. Booth, Mr. Booth absolutely refused to take it unless his protegee (the young man who, under his care, had received a knowledge of city affairs), was made the City Clerk. On June 28, 1893, this young man was made City Clerk, and how well he has discharged the duties of the office we cannot all testify to, but there has never been a complaint, and those who know—members of this body and the general public who had any business with the City Clerk's office—all found him affable and ready to show them every courtesy. He has served as City Clerk faithfully, and has discharged his duty in a manner that should insure his re-election. There has been no word of complaint as to the character of the man, as to his ability, or as to the way he discharged his duty, and I am proud that this young man comes from the ward I represent.

"I now have the honor to place in nomination the name of Edward J. Martin for City Clerk."

Mr. Benz seconded the nomination.

Mr. Shenkel moved

That the nominations close.

Which motion prevailed.

And the result of the voting was as follows:

For Edward Wakefield Hassler:

Messrs.	Gallagher	O'Brien
Barry	Geary	Poke
Booth	Hermes	Schempp
Costello	Jones	Schlernitzauer
Donahoe	Kearns	West

Mr. Murphy presented

No. 636.

To the Select and Common Councils of the City of Pittsburgh.

GENTLEMEN:—We, the undersigned, owners of property abutting on respectively the south side of Frankstown avenue, from Station street to Penn avenue, respectfully remonstrate against the passage of an ordinance authorizing the relocation of Hamilton avenue, from a point 700 feet east of Station street to Penn avenue, and running in the rear of our properties, and cutting therefrom a depth of 60 feet, for the following reasons:

That the original location of Hamilton avenue as indicated and shown by ordinances and plan was located in 1889 and action under said ordinance remained dormant, creating the belief that such would be the entrance of Hamilton avenue to Penn avenue. Frankstown avenue will be widened and a view has been held to widen same 10 feet, making it a

sufficient thoroughfare to accommodate vehicles and foot passengers, and for such widening we have been assessed. The relocation under the ordinance now before you will necessitate an additional expense to the city of a retaining wall along the line of the Pennsylvania Railroad, and will be at an elevation, as we are informed, of 4 per cent., which means 14 feet from Station street to Penn avenue. If said street is relocated in the rear of our property it will compel the city to pay damages for the permanent buildings essential and necessary to our respective businesses, and will practically destroy the utility of our lots for business purposes. The north side of said street will then face the rear of our lots, while the south side of the thoroughfare will be immediately alongside of the tracks of the Pennsylvania Railroad, and it is hardly to be assumed that people or vehicles will select a practical back street as a thoroughfare where some one hundred and twenty odd trains run from 7 A. M. to 6 P. M., and it is an idle suggestion to say that Frankstown avenue will be relieved from its present crowded condition. We are not opposed to paying a reasonable assessment for the widening of Frankstown avenue, and believe when it is done there will be sufficient and ample accommodations to the public.

No. 10

SELECT COUNCIL.

JOHN S. LAMBIE.....PRESIDENT
E. W. HASSLER.....CLERK

PITTSBURGH, July 31, 1903.

Council met pursuant to the following call:

PITTSBURGH, July 29, 1903.

E. W. HASSLER,
Clerk of Select Council.

DEAR SIR:

Whereas, no question has come before Council for many years of greater importance than the purification of the city's water supply, and

Whereas, the matter has been under discussion for many years and it seems to be no nearer a settlement now than it has been for years; whether the purification is to be accomplished by filtration or other methods is yet to be determined, and

Whereas, Common Council has, at its last meeting, passed a resolution providing for the appointment of a committee to consider the matter in connection with the Director of the Department of Public Works, with directions to report its conclusions, together with an estimate of the cost of filtration, on or before the first meeting in September next, and

Whereas, this can only be done by prompt action.

You are therefore directed to call a special meeting of Select Council for Friday, July 31, 1903, at three o'clock P. M. for the sole purpose of considering the resolution above referred to.

(Signed) JOHN S. LAMBIE,
President of Select Council.

Which was read.

PRESENT—Messrs.

President Lambie said:

"It was with great reluctance that I called you together today, but I conceived it to be my duty. I consulted as many of the members as possible before issuing the call, and nearly everybody coincided with me as to the propriety of this meeting. It was stipulated by nearly everybody with whom I talked that filtration should be the sole matter to be considered at this meeting. The subject is of prime importance and should be attended to. Whether this action will accomplish the results that the citizens of Pittsburgh require, or not, I do not know, but it seems to me to be our duty to do the very best we can, and not to throw a straw in the way of the accomplishment of the purification of the City's water supply. If you can take any action that will in the least promote that end, it is your duty to do so."

Mr. Ruhlandt moved

That the reading of the minutes of the preceding meeting be dispensed with.

Which motion prevailed.

The Clerk of Common Council was announced and presented the following:

C. C. No. 1324.

Whereas, the plans for a Filtration Plant as now made contemplate only the supply of that portion of the city between the Allegheny and Monongahela rivers with filtered water, now, therefore,

Be it resolved, that the Director of Public Works be directed to make the present plans of Filtration Plant on such a scale as will supply every portion of the city with filtered water, and to make the estimate of the cost of such a plant, and to report the same to Councils at the first regular meeting in September; and

Resolved, that a committee of five, three from Common Council and two from Select Council, shall be appointed to act in conjunction with the Director of Public Works in securing any and all information necessary to form a correct judgment upon that subject, and to submit the same in a report to Councils at its first regular meeting in September.

Whereas, The Republican party was organized in Pittsburgh in 1854, and it would be peculiarly fitting that it should celebrate the fiftieth anniversary of its formation in the city of its nativity.

Whereas, It is believed that the holding of such a convention in the city of Pittsburgh would promote the interest and welfare of our city; therefore, be it

Resolved, By the Select and Common Councils of the city of Pittsburgh, that the National Republican Executive Committee be invited to designate the city of Pittsburgh as the place for holding the forthcoming convention.

Second—That a joint committee of eleven, irrespective of party associations, be appointed by the Presidents of Council for the purpose of furthering the object in view, and that they be directed to co-operate with any committee or organization, having the same object in view.

Mr. Douglas moved that C. C. Bill No. 1340, entitled, "An Ordinance establishing and levying license taxes for general revenue purposes upon street railways, telephone, telegraph, electric light or power, water, gas and heat companies or corporations doing business in the City of Pittsburgh, regulating the collection of the same, and imposing penalty for default in payment," be withdrawn from the Committee on Finance of Select Council.

The Chair—"I am of the opinion that the motion is out of order, as we are now hearing reports from committees."

Mr. Douglas—"I will then change my motion. I move that the Committee on Finance of Select Council report at this meeting the action taken on Common Council Bill No. 1340, entitled 'An Ordinance establishing and levying license taxes for general revenue purposes upon street railways, telephone, telegraph, electric light or power, water, gas and heat companies or corporations doing business in the City of Pittsburgh, regulating the collection of the same, and imposing penalty for default in payment,' which the Committee obtained permission during the session of Council to retire and consider."

Mr. Upperman—"By what authority can this body require its Committee to report action on a matter where we have no information that action has been taken?"

The Chair—"I think we have such power. If the committee has not acted, nothing is easier than to say so."

Mr. Wainwright—"This does not require a motion. I will state what the committee has done without a motion. Action on the bill was deferred until the next meeting."

Mr. Douglas withdrew the pending motion, and moved that Common Council Bill No. 1340 be withdrawn from the Committee on Finance of Select Council for consideration by Council.

The Chair—"As we are now on Reports of Committees, I do not think that motion is in order at this time, and will so rule."

Mr. Douglas appealed from the decision of the Chair.

The President called Mr. Murphy to the chair.

Mr. Douglas said: "Measures are referred to committees for the facilitation of business. In this case the committee has failed to take action, although it requested unanimous consent to retire during the session of Council to consider this and other measures. I cannot cite precedents, but maintain that it is in order at any time for Council to take a vote, and on a majority vote withdraw any ordinance from any committee and take it up itself."

Mr. Lambie said: "The position of the Chair is, not that Council may not discharge the committee from the consideration of this subject, but that such a motion is not in order at this time. Our rules prescribe the order of business, and we are now in that part of the business of the day which calls for Reports of Committees. This motion is not for a report of a committee."

"The Act of Assembly requires that every bill shall be referred to a committee, and our rules provide that every bill shall be referred to a committee of this body, as well as a joint committee. This ordinance is now before a committee of this body. To refer a matter of such grave importance to a committee, and then call upon the committee to report within an hour, is not reasonable."

Mr. Douglas said: "The order of business now is consideration of the report of the Finance Committee of Select Council. The Committee has just given us a report in regard to this bill, and I claim that we can now take action on that report."

Mr. Costello said: "At what time would it be in order to recall an ordinance from committee?"

The Chair (Mr. Murphy)—"I think that question is out of order, but I would answer by saying, under new business."

Mr. Lambie—"That is my idea."

The ayes and noes were taken on the question, "Shall the decision of the Chair stand as the decision of the House?" and resulted as follows:

AYES—Messrs.

Atkinson	Perry	Upperman
Costello	Platt	Voskamp
Diehl	Ruhlandt	Wainwright

The **Chair** presented

No. 653.

MAYOR'S OFFICE,

PITTSBURGH, PA., October 12th, 1903.

To the Honorable, the Select and Common Councils of the City of Pittsburgh:

I enclose communication from the City Solicitor respecting the widening of Virgin alley, and which explains itself.

I have no recommendation to make, but deem it proper to give the Councils the facts in the case and call your attention to the fact that the city, as the report now stands, will be called on to pay a large sum of money and that there may be a future liability, owing to appeals, for an additional sum. I would suggest that if you desire to take any action upon this matter that it should be done as speedily as possible, because the report of the Viewers will be ready for filing within a short time.

Respectfully yours,

(Signed)

W. B. HAYS,
Mayor.

No. 654.

DEPARTMENT OF LAW,

CITY OF PITTSBURGH, October 3d, 1903.

Hon. WILLIAM B. HAYS, Mayor.

My Dear Sir:

The Viewers appointed by the Court of Common Pleas No. 1, of Allegheny County, to estimate and determine the damages and assess the special benefits, in the matter of the widening of Virgin alley from Liberty avenue to Smithfield street, have completed and signed a report, which they are about to file in court. I enclose herewith a copy of their schedule of damages and benefits.

The report shows the gross amount of damages to be \$1,335,275.56; from this amount the sum of \$526,302.35 is deducted as representing the total of specific benefits assessed against properties on the north side of the alley. The net amount of damages is \$808,973.51. These damages are allowed to the owners of property on the north side of the alley. The special benefits are assessed against the owners of property on the south side, and they amount to \$785,295.00, which includes an assessment of \$79,800.00 against the City of Pittsburgh, as special benefits to the City Hall property. There is an excess of damages over special benefits amounting to \$23,678.51. This amount is also assessed against the City of Pittsburgh.

The law gives to the municipality the right to repeal its ordinance within thirty days after the filing of the report in Court, provided, it shall not have entered upon, taken, appropriated or injured any of the property needed for the improvement. In which case it shall not be liable for any of the damages assessed, but must pay all costs, together with any actual damage, loss or injury sustained, by reason of the proceedings.

In calling your attention to this report, I do not desire to be understood as suggesting the repeal of the ordinance. The matter, however, is of such public importance that the Mayor and City Councils should be advised of the situation at the present stage of proceedings.

Upon the filing of the report in Court, all parties interested have the right of appeal and trial by jury. It is of course, possible, on appeals and trials by jury, to increase the damages and decrease the amounts of special benefits. Any increase of damages or decrease of special benefits would very likely fall upon the city.

Respectfully,

[Signed]

W. B. RODGERS,

City Solicitor.

President Crawford said:

"In the death of Mrs. Mary E. Schenley Pittsburgh loses a loyal, cherished friend! What she has done for Pittsburgh will never be forgotten, and as time rolls by her munificent gifts will be appreciated more and more. The people of Pittsburgh had become so accustomed to using her name in connection with benevolent donations from her, and in particular in connection with the beautiful pleasure-ground attached to our city, that it has almost seemed as though she were one of Pittsburgh's citizens; and on account of her loyalty to her native city, and her bounteous gifts to us, it is indeed appropriate that we should convene to-day in honor of her memory.

"I am indebted to Mr. W. F. Aull for a brief sketch of the ancestors of Mrs. Schenley, which is as follows:

"Her maternal grandfather, General James O'Hara, came to Fort Pitt in 1773, and was an Indian trader before the Revolution. He entered the Revolutionary Army as a private and became Captain of the Ninth Virginia Regiment; he was assigned to the Quartermaster's Department and became Assistant Quartermaster. After the Revolution he became purchasing agent for the Government. He located at Pittsburgh and purchased much land in and around this city.

"In 1788, O'Hara was a Presidential Elector and cast his vote for George Washington. In 1792, he was appointed Quartermaster General—U. S. Army, and continued as such during the Whisky Insurrection of 1794 and Anthony Wayne's Indian campaigns in the Northwest in 1795. He erected the first glass works west of the Allegheny Mountains. He was a director in the first bank in Pittsburgh, in 1804, and he died at Pittsburgh, Pa., December 15, 1819, leaving three children: James O'Hara, Jr.; Elizabeth F., who married Harmar Denny; and Mary (the mother of Mrs. Schenley), who married William Croghan, Jr.

"General O'Hara, during his lifetime accumulated a vast estate, the principal part of which was in and around Pittsburgh.

"Her paternal grandfather was Major Wm. Croghan, native of Ireland, born 1750. He came to America when young and settled in Virginia. In 1776 he was Captain of the Fourth Regiment, Virginia Line, under Colonel John Neville; he afterwards became Major of the Regiment. He was with Washington at Trenton and Princeton; at Monmouth, Brandywine, Germantown and Valley Forge. He was a prisoner in the Carolinas, and was present at the Yorktown surrender. He came to Fort Pitt with Colonel John Neville in 1782. He moved to Locust Grove, near Louisville, Ken., in 1784, and remained there until he died in 1822. While in Kentucky he married a sister of General Geo. Rodgers Clark, of Revolutionary fame.

"Mrs. Schenley's father, William Croghan Jr., was born in Kentucky, but after he married Mary O'Hara, daughter of General James O'Hara, in 1821, he settled in Pittsburgh and remained there the balance of his life. He was a remarkably handsome man and a perfect gentleman. He was an attorney, admitted to practice at the Allegheny County bar in May, 1835. He built and occupied that beautiful country seat called "Picnic," in the Eighteenth Ward, Pittsburgh, where he died September 22, 1850.

"Mrs. Schenley married, when quite young, Captain Edward W. H. Schenley, of the British Army, and lived in London ever since. She inherited, through her mother, one-third of the General James O'Hara estate, which has become very valuable.

"In 1846 Mrs. Schenley gave one-half of the ground now owned by the West Penn Hospital, and Mrs. Denny the other half.

"In 1889, she gave 300 acres of ground for Schenley Park.

"In 1890, she gave 5 acres of ground to the Blind Asylum.

"In 1894, she gave lot for Newsboys' Home.

"In 1895 she gave the Block House and grounds to the Daughters of the American Revolution."

Mr. Douglas presented, on behalf of the Special Committee, the following memorial minute:

No. 663.

With deep regret the people of Pittsburgh have learned of the death of Mrs. Mary Elizabeth Schenley, which took place at her residence in London, England, on Wednesday, November 4, 1903.

While Mrs. Schenley was born in Louisville, Ky., on April 27, 1826, she was of Pittsburgh family and most of the years of her childhood were passed in this city. Here her material interests were largely centered, and throughout life she revealed a constant love and solicitude for the welfare of this community. She was a worthy daughter of distinguished ancestry, and the heritage of patriotic fame left by her father and maternal grandfather was nobly supplemented by her affection for her native land and ancestral home. Although dwelling for many years in a distant country, the ties that bound her to the early home were never broken.

Mrs. Schenley's lasting memorial in this city is a magnificent park that bears her name. By deed dated October 30, 1889, she presented to Pittsburgh for public park purposes forever 300 acres of land of the tract known as Mount Airy, and at the same time gave to the city an option on 100 2-3 acres adjoining for the extremely low price of \$125,000. The deed and option were accepted by the city, in joint session of Councils, on November 15, 1889. Her additional offer to sell to the city 19 acres now forming the park entrance for \$75,000 was accepted by Councils on November 26, 1890.

It is worthy to be recorded that in the sales made to the city Mrs. Schenley declined to fix the prices, but permitted the figures to be named by a representative of the city; and the prices so named were much below the actual values of the land conveyed. In her deeds to the city Mrs. Schenley was always careful to have it stated that she was a native of the United States and a citizen of Pittsburgh.

In accepting the gift of Schenley Park, Councils, in joint session, adopted a resolution setting forth their appreciation of the donation in the following terms:

"For the first time in the history of our city, one has been found with sufficient interest in its welfare to present to the people a gift worthy of the rapidly growing want of the city and one that cannot fail to be of the greatest advantage to all—to the toiler and his dependents and to the masses of our rapidly growing population—by providing for them a breathing place, rich in pure air and natural beauty, that will elevate and make brighter their lives. We know that words in but a feeble manner give expression to the feeling of gratitude that all have toward Mrs. Mary E. Schenley, and that the advance of time will intensify that feeling in the hearts of the people for their benefactress, and that the name of Mary E. Schenley will be coupled with the blessings of thousands who, now and in the future, will enjoy her noble gift."

In addition to this one great and lasting benefaction, the memory of Mrs. Schenley is revered for other gifts of land to public and private institutions in this city, including the Western Pennsylvania Hospital, the Western Pennsylvania Institution for the Blind and the News-boys' Home.

In 1894 she gave to the Pittsburgh Chapter of the Daughters of the American Revolution the land on which stands the old block house, built near Fort Pitt in 1764, the only remaining relic of colonial times at the forks of the Ohio. Mrs. Schenley is also remembered for many kindly acts in behalf of religious and benevolent societies, and for her private charities in numerous directions. As the owner of vast tenant properties, she was ever careful that they should be so leased and managed as to add the smallest possible portion to the burdens of the humbler classes.

Mrs. Schenley was spared to a good old age. For many years she was blessed with a happy domestic life in the land of her adoption. Many Pittsburghers remember with pleasure her hospitality in her English home.

Select and Common Councils of the City of Pittsburgh, in joint session assembled, hereby renew their sentiment of gratitude to this kindly and noble woman, with sympathy and condolence to her kindred and friends here and abroad.

It is ordered that this minute be entered of record in the proceeding of Councils.

Mr. Douglas said:

"Mr. President and Gentlemen of Councils: In asking for the adoption of this resolution, I wish to say that Mrs. Schenley was one of nature's noblewomen, if there ever was one. She did not let her right hand know what her left hand did. She was kindly and affectionate, and loved her home city. She was one of the sweetest benefactors we ever had. Until this minute is read by the people of this city, one-tenth of them will not know what she has done for the city of Pittsburgh."

Mr. Wasson moved

That the report be adopted and that a copy of it, attested by the Presidents of Councils and the executive officers of the city be sent to the family of the deceased.

Mr. Stevenson said:

"I hope that Councils will pass this resolution promptly. As a representative of the Fourteenth ward, in which ward a large part of Schenley Park is situated, I am in a position to notice how this park is appreciated by the people. Although it has been said that this magnificent gift is a memorial to Mrs. Schenley's memory, I think the people of this city should erect a monument to her, and I believe such a proposition would meet with the approval of every person in the City of Pittsburgh. The city should take prompt action to provide funds for the erection of a memorial at the entrance of the park that would perpetuate the memory of Mrs. Schenley. Her great gift has been appreciated by the people of the city at large, and especially by the people of the wards surrounding the park."

City Controller J. B. Larkin said:

"I can add nothing to the remarks of the gentlemen who have preceded me. I can only say that Mrs. Schenley was a noble and public spirited woman. The evidence of her public spirit is made manifest in the park which she has so kindly given to the city. Few of us present can thoroughly appreciate her munificence. It will be more fully appreciated by future generations. It is a place where the rich and the poor can go and enjoy alike. It is free, and there is plenty of pure air and sunshine. It is one of the nicest places in this country. It is a place of innocent enjoyment, and it is a pleasure to go there. The people who will come after us will appreciate it and its beauties most."

The motion was adopted unanimously by a rising vote.

Mr. Stevenson moved

That a committee, consisting of three members of Common Council and two members of Select Council, be appointed to consider a permanent memorial to Mrs. Schenley.

Mr. Wasson said:

"I agree that the memory of this woman should be perpetuated. The present generation does not appreciate her gifts as much as will the rising generation and the generations to come. I believe action should be taken at once

looking to the erection of a permanent memorial. We should have a committee to confer with the Chamber of Commerce relative to the raising of an adequate fund."

Mr. Wolfe said:

"This proposition will meet with the approval of the general public. The citizens at large should be called upon to contribute towards a fund for this purpose and I doubt not but that the poor and humble, as well as the wealthy residents of our city, will gladly avail themselves of the opportunity to establish a memorial to Mrs. Schenley. I am satisfied that they will all esteem it a privilege to commemorate the name of this noble woman whose generous heart was prompted to bestow upon the City of Pittsburgh the beautiful park that bears her name."

Mr. Hole said:

"I believe that the name of Mrs. Schenley will never pass away from the minds of the present generation. She has given to us some of the most noble gifts possible. I believe that these gifts were from her heart and not from her great wealth. She gave them because she loved to do so, and not because she was in a position to do so. She has given to us something that will be kept for all time. Her gifts will be appreciated more fully when the people hear the sad intelligence of her decease. She gave to us something that I fear even the members of Councils do not fully appreciate. I am glad that so many are present to take action on this resolution and pass it promptly and unanimously, and to show her friends and relatives here and abroad that we not only appreciate the gifts, but are sad that one who has been in a position to give to us has passed away."

"This brings to our minds this afternoon this important fact—that death is certain to all. It meets the man who is poor and lowly in his humble home. It meets the man and woman of wealth, and those who have attained great riches. It comes to us all. My friend of the

Fourteenth Ward could not suggest a greater thing than to erect a monument to the memory of Mrs. Schenley. Our children, after we have passed away, can see this monument that will stand for the noble woman that has given to us these great gifts. People in the future can see the monument and say, 'This monument has been erected for the one who has given the park you now enjoy.' I am heartily in favor of erecting a monument. Everybody will give; the rich, the poor and even the little children will give their mite, and that noble woman will have a monument erected to her memory that the city will not be ashamed of."

Mr. Murphy, of Select Council, presented

No. 674.

Councils mourn the death of John Stoussa Lambie, who passed away in the night of Saturday, November 14, 1903. The members of Councils have lost a true friend and Pittsburgh has lost an ardent lover.

John S. Lambie was born in the borough of Birmingham on November 1, 1843. Left fatherless when a lad, he was compelled to make his own way, and did it well. He was naturally studious, graduated with honor at the Pittsburgh High School, and was for some years a teacher in that institution. Before he was of age he enlisted in his country's service, in the Eighth Pennsylvania Reserves, but by reason of defective eyesight was kept from active duty in the field. He devoted himself to the law and for nearly forty years was an honored member of the Allegheny County Bar.

Mr. Lambie represented the Eighth ward to Select Council for nearly 27 years—a term of service unequaled in the history of the city. He was exceptionally well versed in municipal affairs and took a keen and effective interest in the welfare of the city. Many important and salutary measures prepared by him are recorded in the ordinance books of Pittsburgh.

Mr. Lambie was in the sixth year of his service as President of Select Council. He was a model presiding officer, considerate and fair to all, careful and authoritative on parliamentary law, clear and convincing in its exposition. When he took the floor in support or condemnation of any measure, he spoke with knowledge and thoughtfulness and never failed to throw light on the subject of debate. His action on all questions of public policy was dictated by conscientiousness. He took what he felt to be the right course and held to it with earnestness. In his intercourse with his fellowmen, he was courteous, affable and charitable, and in the performance of public duty firm but kindly.

In the conflicts that arose in Council through the expression of divergent views, he always

retained the personal friendship and esteem of all his colleagues. In his heart there was no malice. In the Municipal Hall he uttered many eloquent tributes to departed associates in public life, and similar words of eulogy are justly due to his memory.

Mr. Lambie's activities were exerted in many directions—social, legal, educational and religious. He was a constant student, a lover of good literature and one who delighted in the beauties of poetry, music and the fine arts. He revered the memories and results of the Civil War and was Past Commander of Alexander Hays Post No. 3 of the Grand Army of the Republic. To religious work he was especially devoted. For many years he was an officer of the Eighth United Presbyterian church, and to the close of life a teacher in its Sabbath school.

In politics Mr. Lambie was an unswerving Republican. In 1893 he was the nominee of his party for Mayor of Pittsburgh, and, though defeated by a slender margin, he passed through the trying campaign with the respect of his opponents and without a touch of personal blemish.

Select and Common Councils of Pittsburgh, assembled in Joint Session, express this memorial of their sorrow at the loss of an able member, a helpful associate and a true friend. To his aged mother, his widow and children we extend our utmost sympathy, with a hope that the sense of their bereavement may be tempered by the comforting remembrance that during the years while he was with them his life was an example and a benediction.

Mr. Murphy moved

That the minute be entered in the records of Councils and that an engrossed copy of it be presented to the family of the deceased.

Mr. Perry, of Select Council, said:

"Mr. Chairman and Gentlemen of Councils—I do not know that it is in my power to say that that would express our sentiments on this sorrowful occasion more than the minute just read. I have been associated with Mr. Lambie for fifteen years in Councils. I have also been what I might call a warm supporter and friend of our beloved President. He was a man in every sense of the word. He was a man that you and I could look up to on all occasions. Anything he did or advocated was right, and there could not be anything wrong about it. My experience with him was that, in every thing he undertook, important or unimportant, he ascertained first the fact that it was just and right to his fellow citizens before he would take any part in it. Your first impression in meeting him would be that probably he was a little distant in his conduct and cold, but you would never be more greatly mistaken than in such a conclusion. The better you became acquainted with Mr. Lambie the more your respect would be for his character.

"He was a man of eloquence and intelligence, and a great reader. In enlarging a man like him, it is almost impossible to find words strong enough to express the proper sentiments. I do not believe the man was ever guilty of a dishonest act in his political career or in his dealings with his fellow man. As a presiding officer of Select Council, his decisions were kindly and just, and I cannot remember a single instance where his decision was reversed by an appeal from the Chair. He was always sustained, no matter what the politics of Council might be. Such was John S. Lambie.

"Last Friday morning a member of Select Council went to Mr. Lambie's home to visit him. He was in great hopes of being able to pull through. We all thought he was on the rapid road to recovery, but the good Lord never intended him to come back to us. The hand of death was on him then. In his death I lost one of the warmest friends that I ever had on the floor of Councils.

"There never was a new member who went to Mr. Lambie for advice who did not receive it, and a kind word as well. If he told you he was your friend, you might be proud of it, and know that his friendship was from his heart. When a new member got up on the floor of Council to make his maiden speech, Mr. Lambie always encouraged him and was not the one to beat him down. He would give him the hand of good fellowship.

"It would be folly for me to continue to talk on this subject. You all knew him as well as I. He had many trials and tribulations, but he rose above them all, because he was a man of powerful mind and strong character. When he knew a thing was right, nothing would turn him from his point. He was a good church member and a conscientious Christian. I heard the tribute paid him by his pastor. No living man could receive better, and no one who has passed beyond will ever receive more deserved praise.

Mr. Lambie was an able member of the bar, always received the respect of his opponents, and was fair to his clients. He was a home man in every sense of the word, and when his day's work was done he was always anxious to get home to his family. He was a loving husband and father. He raised his children as God intended they should be raised. If ever there was a good man, I believe our noble President was that man.

"I believe that I have but uttered the sentiments of every member, and I hope our great loss was his eternal gain."

Mr. O'Brien, of Select Council, said:

"I cannot add anything to what has already been said. I did not have that intimate acquaintance with Mr. Lambie that many here had, but I just wish to say a word as to the impression he made upon me.

"One thing I was struck with. In his remarks at the memorial of a deceased member he spoke eloquently of this world's beauties, of nature and its beauties. He quoted that old Scotch line, 'This is a bonny, bonny world.' When he spoke that I knew he was a lover of nature. He was in harmony with his environments.

"I read only yesterday that he was the originator of that beautiful festival, Flower Day, now practiced in nearly every large country in Christendom. That alone is enough to perpetuate the memory of any man.

"In his speeches he dropped quotations from the best literature, showing plainly his love for the beautiful. I wish to say these things impressed me very favorably towards the man.

"As a politician he sank his individuality in what he believed to be the good of his party. But in the presence of death we forget the political aspects of a man's life in our admiration of his nobler and better qualities."

Mr. Murphy, of Select Council, said:

"Too much cannot be said in appreciation of the character and service of our late presiding officer, John S. Lambie. It was my pleasure to become personally acquainted with him soon after my admission

to the Allegheny County Bar, and my first impressions of Mr. **Lambie** have never been changed. He was a sincere, honest and faithful gentleman. My association with him as a member of the bar and as a lawyer was of the friendliest character. He was always true to his clients and at the same time courteous and fair to his opponents.

"His service for 27 years as a member of Councils was characterized by efficient and notable work in behalf of his city. During this long period he so conducted himself as to earn an enviable name as a city legislator and to command the respect and confidence of his fellow citizens. As President of Select Council, Mr. **Lambie** showed himself an able parliamentarian, always seeking to be impartial and just in his decisions and courteous and kindly in his treatment of all his fellow members. In his desire to do what he believed right and proper for the public interest, he frequently exhibited an honest and sturdy independence which commanded the respect of those who felt obliged to differ with him. His generosity and kindness were ever in evidence, and the members of Select Council most deeply mourn his death."

The motion of Mr. **Murphy** prevailed unanimously by a rising vote.

Mr. **O'Brien**, of Select Council, presented No. 675.

The death of a man so actively identified with the business, political, religious and charitable affairs of a city as was **William J. Rothweiler** with the interests of Pittsburgh brings with it a peculiar sorrow. A full realization of the loss his passing has wrought can only come with the calmer reflection that follows the first shock. There are hundreds around us to-day who are appreciating this more every hour as they review the man's worth from the perspective that happily came to many before his death.

Mr. **Rothweiler** was born of sturdy stock in Hartford, Conn., on September 9, 1856. In that Yankee center he spent his boyhood and received his education. On the eve of his majority he took himself to the West, eager to enter the lists of business and fight his own battles. At Newport, Ky., he rounded out his training by serving an apprenticeship in a machine shop. Young as he was then, he showed himself to be of the right stuff, and the shop became the plant of the **Rothweiler Manufacturing Company**.

In 1883 Mr. **Rothweiler** married Mary Lydia Wentz, of Cincinnati. Two years later he came to Pittsburgh to play a leading part in its activities until his death. Thrice armed with the stability of his race, the shrewdness of the East and the cool self-reliance of the West, he took his place among men of affairs and kept it to the end.

Immediately after his arrival in the city he became manager of the old Pittsburgh Printing Company. A long period of marked success in that capacity ended when he founded the Daily Financial News. Still later he returned to his old work as the head of the Duquesne Printing and Publishing Company. Last year the scope of that concern was broadened, and, with the absorption of the Joseph T. Colvin Company, of Allegheny, Mr. **Rothweiler** became the head of the Duquesne Printing Company, operating an establishment with few superiors in the State.

Early this year Mr. **Rothweiler** began to feel the weight of a mysterious affliction,

Apparently still as robust as his years deserved, he was falling more firmly into the grasp of disease that finally encompassed his death, but hid his identity until it was too late for medical skill to stay it. In the spring he was compelled to leave his desk and relinquish active participation in his business affairs.

It was not, however, in the deadly disease to blunt the kindly spirit of the man. His interest in his community and in the welfare of his neighbors was as keen at the last as it was when he first came into their life. His duty to his city and to his church was as faithfully rendered to the end as it ever had been, and this must be accounted not the least in the tale of his virtues.

Mr. **Rothweiler** enjoyed the unique distinction of representing in Select Council a ward he had created. He became a resident of Brushton soon after he came from Kentucky. Brushton was then a borough with no distinctive interests, and owing its very existence to the city on whose borders it lay. It was a village of homes, with no more than the business concerns those homes demanded. To the east of it lay Wilkinsburg, older, bigger and more progressive. To become a part of Pittsburgh was Brushton's manifest end.

Mr. **Rothweiler** saw this at once. Unlike many older residents of the town, he was not content to await the slow evolution that has swung the Greater Pittsburgh forward in its orbit. He began, instead, to hasten the process in every way he could. Seven years ago his work bore fruit and the Thirty-seventh ward came into existence. The father of the ward was the logical man for Select Council. Mr. **Rothweiler** was forthwith elected and was twice re-elected.

In Council Mr. **Rothweiler** was not assertive, but he was the more keenly alive to what went on around him for that very reason. Faithful in his attendance and conscientious in the discharge of his duty, the records of the branch show how well he served, even if no eloquent speech or skillful leadership in battle be part of his fame.

Mr. **Rothweiler's** charity was broad and modest. It was ever tempered with discretion, but no worthy appeal found him deaf or slow to respond. His aims have gone up to heaven for a memorial to him. In church work he was active and from the organization of the Hamilton Avenue Methodist Episcopal Church his part in advancing her interests and usefulness was unceasing. Not the least of this was his cheerful turning of his musical talent to account.

The quiet are not always the weak and ungifted. How true this is the life of **William J. Rothweiler** bears witness.

Mr. **O'Brien** moved

That the minute be entered in the records of Councils and that an engrossed copy be presented to the family of the deceased.

Mr. **Shearer** of Common Council said:

"I had the pleasure of meeting Mr. **Rothweiler** some twelve years ago, when I first became a resident of the Thirty-seventh ward, then Brushton borough. I was one of his active supporters for Select Council when Brushton became a part of the city. From that time to the present I could never forget him. We were always great friends, and when I met him I always grasped his hand

and called him Brother **Rothweiler**. Though we have differed politically in the last two or three years, it has never injured our friendship. I always found him a cheerful, kindly and good man, and a man every one could approach. He was liked by all the citizens of the Thirty-seventh ward, irrespective of politics. He has been a help to me and to all the citizens of the Thirty-seventh ward, and I am thankful that I have been acquainted with him and could call him my friend. I ask God to bless **William J. Rothweiler** on his journey to the other land."

Mr. Murphy, of Select Council, said:

"I have known **Mr. Rothweiler** for about fifteen years. I knew him in a business way, in connection with his printing business, before I knew him as a Councilman. I knew the people with whom he dealt, the people who were his customers, and every one of them has the kindest feelings for him. Nothing could speak higher for a man than to have those he dealt with say that he was always strictly honest in his business relations. That is true in this case. I knew **Mr. Rothweiler** in Council, and I learned to love him. He always tried to do what he considered right. Select Council has lost an able member and sincerely mourns his loss."

The motion of **Mr. O'Brien** prevailed unanimously by a rising vote.

Mr. Zahniser presented

No. 745.

PITT BURGH, February 22, 1904.

To the Select and Common Councils of the City of Pittsburgh.

Gentlemen:

I beg to call the attention of your honorable bodies to a provision added to the appropriation ordinances requiring the crediting of unexpended balances in addition to amounts deemed ample for the government of the city. This, in my judgment, is a clear violation of the spirit of the law, inasmuch as there is no equivalent revenue provided in the accompanying revenue ordinance. In any view of the case, these balances should be passed to the credit of the appropriations to which they belong and made part of, in place of being added to them. If, for instance, the Bureau of Fire, out of an appropriation of \$574,907, had through the care of its superintendent, saved \$14,000 last year, good business judgment would be followed by passing to its credit for the year, first, its unexpended balance, \$14,000, followed with an added appropriation of \$560,907, the two amounts representing the expenditure of the bureau for the past year, unless a larger amount were necessary.

Under the provision made by the honorable Common Council, an appropriation of \$635,000, and greatly in excess of former years, is first made, to which is intended to be added the unexpended balance of \$14,000, making a sum total of \$649,000 to meet an expenditure that last year amounted to \$560,907.

Water had in 1903 an appropriation of \$381,882, of which \$324,585 was expended and provision made for contracts amounting to \$27,915, leaving a clear balance of \$29,381, which belongs to the people and should be passed to the credit of water for 1904 and made a part of the appropriation, \$295,204 additional being required to equal the expenditure of 1903. Instead of this the appropriation for the present year is \$363,000 plus the unexpended balance of \$29,381, making \$392,381 to meet a proposed liability of \$363,000, against an expenditure last year of \$324,585, and so on through the entire appropriations.

These unexpended balances, amounting to \$257,076, were not required in the cost of government in 1903, and by reason of the action of Common Council in refusing to allow the merging of them, a deficiency to that extent is created, less the free money, \$118,682, standing to their credit, making a net deficiency of \$138,394. The privilege to spend the amount appropriated was not exercised; but because it was not exercised and was not needed is no reason why it should be added to appropriations covering every phase of the cost of government for 1904. This is creating a liability for which no revenue is provided and against which there is no present charge.

As stated, I am convinced that a sound financial policy and the experience of last year justifies the merging of these balances and a corresponding reduction of the appropriations. If this is not done, money to meet them in excess of that remaining in the City Treasury, and set aside to cover contracts, must be provided for in appropriation bills. In that case the free cash in the Treasury, amounting to \$118,682, can be estimated against the balances and the remaining deficiency of \$138,394 be made good by taxation.

The purpose should be, and I feel that you will agree with me, to not only prevent deficiencies, but to keep the appropriations down to the actual needs of a progressive yet prudent government, as provided for by your honorable Committee on Finance in its exhaustive report modeled after that of the year just closed, when the books of the city show that after every obligation has been met or provided for, there is \$118,682 free money in the Treasury and no deficiency that is not made up in excess of appropriations over expenditure.

To say that because money once appropriated must be expended, whether needed or not, may be good law, but is morally wrong, and the transfer of it for no purpose other than to await op-

portunity to spend it makes the wrong no less flagrant.

That I may be fully understood, I beg the indulgence of your honorable bodies for a single and simple illustration: If a bureau had appropriated to it \$200,000, and at the end of the year had a balance of \$50,000 remaining, it is clear that the right to spend that money was not exercised, and that it was not needed. Unless for some good reason, natural growth or betterment, it is fair to assume that the bureau should have for the following year \$150,000. Having \$50,000 unexpended balance, already appropriated, \$100,000 additional would equip it, as it would then have \$150,000, the amount it had expended in the previous year. That would be good business sense compared with voting the bureau \$150,000 and then passing to its credit the unexpended balance of \$50,000, making \$200,000 to meet a known liability of \$150,000.

Were the appropriations short or injudiciously made, by men without experience, there might be reason for those additions. Even then, why swell the appropriations beyond the estimates of your committee, and then add to them the balances of a prior year? Fire, police, water, light, highways and sewers, and street repaving are all very high and may be measured by street repaving for which your committee gave \$175,000. The Director of the department informed the committee, as its engineer informed me, that not more than \$175,000 to \$200,000 could be expended during the year, yet in the face of that, and the expenditure of about \$175,000 in 1903, the amount was changed to \$254,000.

Turning to the tax levying ordinance I find that the amount to be received from the item "city tax" is estimated at \$4,918,237, or the product of \$393,459,000, the exact taxable value, multiplied by the millage, 12.5. This will certainly not be realized, and no one will contend honestly that it can be. If the purpose is to estimate receipts on full valuation and depend on the receipts from delinquent taxes to make up the deficit, 2 per cent. to 2½ per cent. should be deducted.

It has been the custom (as will be seen by an examination of the tax levying ordinances for 1900, 1901, and the Assessor's reports of the valuations for those years) to allow a reduction, as stated to cover discounts, etc. Even with this allowance an examination of the receipts of these years shows that they failed to make good the appropriations. If, then, the full amount of the tax levy is estimated as a receipt, it inevitably follows that a deficit will be created.

The inflation of revenues to make room for inflated expenditures is an old, worn-out device; a juggle when artfully employed, but a ludicrous bungle when the agency attempting it is compelled to put the City Solicitor in the position of collecting \$371,000 out of \$258,000. In making up the revenue

sheet I was governed by the experience and best judgment of the office in fixing City Attorney collections at \$175,000, \$180,000 having been collected this year. Mr. Smith, of that office, told Mr. Morrow the amount seemed a trifle high, as the total amount outstanding on his books due the city was only \$258,000, yet \$371,000 was put into the ordinance and \$175,000 taken out of it, making a deficit of \$196,000 in that item alone.

If the ordinances are left in their present shape it will be seen from what I have said that the present fiscal year will be started with a deficiency of not less than \$334,000, caused by a failure to provide for the balances carried over and the overestimating of the revenue to be received from the City Solicitor's office.

If that spirit or want of care were to pervade the whole ordinance the deficiency at the end of 1904 would equal \$3,800,000, or more than three and one-half times the bulk of the one just disposed of. If a balance remaining on the ledger is not represented by cash in the Treasury it is a deficit, and in order to provide for it it should be made part of and be included in the appropriation bill, either by merging or by being made a separate item on the bill; and provision in an honest revenue bill should be made to meet it.

Under the old charter warrants could be and were issued to the limit of the appropriations if desired, and when there was no money in the treasury to meet them money was borrowed from the depositories at 5 per cent. per annum to pay them; but under the present charter warrants cannot be countersigned unless the money to pay them be in the Treasury at the time of issue.

Therefore, a deficit might result in great loss and inconvenience to innocent creditors and be discreditable to a city that carries in its depositories from \$3,000,000 to \$6,000,000 for strangled improvements.

Respec fully submitted,

J: B. LARKIN,

Controller.

No. 753.

DEPARTMENT OF LAW,
PITTSBURGH, PA., October 14, 1903. }

Mr. E. W. Hassler, City Clerk.

Dear Sir:

I acknowledge the receipt of your communication of the 13th inst. and copy of resolution attached thereto.

The communication and the resolution refer to an exoneration asked for by Mr. H. P. Harbaugh on the widening of Frankstown avenue, and the resolution is referred to me for an opinion as to the propriety of the passage of such a resolution by Councils.

Whilst I believe, as a legal proposition, that the City Councils may exonerate an assessment, either in whole or in part, where injustice has been or is likely to be done, yet I am constrained to say in this case that there would be in my judgment no propriety in the passage of this resolution. The assessments are made by a sworn Board of Viewers, and presumably according to benefits. When the Viewers make an assessment, if they are in error, the party assessed has an appeal to them, and it is to be presumed that they will correct any errors. If the Viewers fail to correct an error, then the party assessed has a right to appeal to the Court for relief, and again, it is to be presumed that the Court will do justice. If the city makes this exoneration, then it becomes liable to pay the money out of the City Treasury, and I see no reason why, when, as in this case, an assessment is made by Viewers not appointed by the Councils, but by the Court, and afterwards confirmed by the Court, that the city should itself pay the whole or any part of such assessment. The party assessed has his right to be heard before the Viewers and in Court. If he fails to appeal either to the Viewers or to the Court, that is his own fault. If the Viewers, or the Court, in case he appeals, refuses to reduce the assessment, the presumption is very strong that the assessment is right.

I return herewith your communication and the copy of the resolution referred to.

Yours truly,

WM. B. RODGERS.

No. 135 1-2

At a meeting of the Board of Trustees of the Carnegie Institute, of Pittsburgh, Pennsylvania, held on Friday, September 19, 1903, the following statement was presented and read and on motion approved and adopted by the Board, as giving a correct outline in general of the proposed educational organization and control of the School of Technology offered to the City of Pittsburgh by Mr. Andrew Carnegie.

Whereas, There has been laid before this board an ordinance now pending in the Councils of the City of Pittsburgh entitled, "An Ordinance authorizing and empowering the Board of Trustees of the Carnegie Institute and their successors to enter upon, use, occupy and hold certain land and real estate in the Twenty-second ward, Pittsburgh, for the purposes of establishing and maintaining thereon Technological Schools and to erect buildings thereon for said purposes, Section 2 of which is as follows: "This ordinance shall not take effect until the said trustees shall have filed with the City of Pittsburgh a statement of stipulation acceptable to the Mayor and Councils of said city setting forth generally

the nature and character of the institution that is to use and occupy said premises, and setting forth particularly in what manner and how the said City of Pittsburgh shall have a voice in the management of said institution, which statement shall be filed with the City Clerk and recorded in the ordinance book in his office;" and

Whereas, It is the desire of this board to comply with the provisions of said section;

Resolved, That the following statement of facts taken from the records of this board and of the City of Pittsburgh is hereby approved, adopted and pronounced correct.

Resolved, That this preamble and resolution, together with the statement hereinafter set forth, be spread in full upon the records of this board and that the secretary be instructed to deliver certified copies of the same to the Mayor and Councils of the City of Pittsburgh.

On November 15, 1900 Mr. Andrew Carnegie, in a communication to Hon. William J. Diehl, Mayor of the City of Pittsburgh, said: "I believe that a first-class Technical School, probably as large as Worcester, would develop latent talent around us to such an extent as to surprise the most sanguine. If the City of Pittsburgh will furnish a site, which I hope will be of ample size for future extensions, I should be delighted to provide the money for such a school, taking care to provide room for additions to the buildings to meet the certain growth of Pittsburgh. I would endow it with \$1,000,000, 5 per cent gold bonds, yielding a revenue of \$50,000 per year." (Note.—This endowment has since been increased to \$2,000,000).

On December 15, 1900, Mr. Carnegie wrote as follows:

W. N. FREW, Esq., President Board of Trustees Carnegie Institute.

Dear Mr. Frew:—I hereby place the Technical School under your commission, glad indeed that I am privileged to do this after having received assurance that your board was willing to undertake the great responsibility involved."

On receipt of this letter the Board of Trustees of the Carnegie Institute adopted the following:

"Resolved, That this Board of Trustees does hereby accept the charge of the new Technical School referred to in the foregoing correspondence, and the secretary is requested to inform Mr. Carnegie to that effect.

"Resolved, further, That the president and secretary be requested to send to the Mayor of Pittsburgh a certified copy of the letter from Mr. Carnegie to Mr. Frew, dated December 15, 1900, placing the new Technical School in charge of this board."

On February 6, 1890, in a communication addressed to the "Mayor and Councils of Pittsburgh," incorporated in an ordinance recorded in Ordinance Book, Volume 7, page 265, Mr. Carnegie, inter alia, said: "I propose that their location, erection and management" (referring to the main and branch buildings of the

Carnegie Library system in Pittsburgh), "shall be entrusted to a Board of Trustees composed, ex officio, of the Mayor, the Presidents of Select and Common Councils, the President of the Central Board of Education and a Library Committee of five appointed by the Councils. To these I should add the names of twelve well-known citizens of Allegheny county."

Under date of May 6 1890, Mr. Carnegie wrote as follows:

John S. Lambie, Esq., Chairman, Pittsburgh, Pa.

Dear Sir:—Three citizens, members of the Library Commission, having resigned, nine only remain. As the city has nine official representatives upon the commission, equality of representation will be secured by leaving unfilled the places of the three resigning members and this will be done."

Article 1 of the Constitution of the Trustees of the Carnegie Institute, adopted in accordance with the terms and provisions of a deed of trust creating said board and executed by Andrew Carnegie on the 2nd day of March, 1896, provides as follows: "The title of this body, created by appointment of Andrew Carnegie, is the Trustees of the Carnegie Institute. It is composed of the following named persons: Dr. W. J. Holland, C. C. Mellor, John A. Brashear, John Caldwell, Prof. Gustave Guttenberg, William McConway, Rev. A. A. Lambing, C. L. Magee, D. T. Watson, Albert J. Barr, John W. Beatty, Josiah Cohen, Joseph R. Woodwell, E. M. Bigelow, A. S. Wall, Henry Phipps, Jr.; Samuel H. Church, T. M. Carnegie, and, ex officio, the Board of Trustees of the Carnegie Library of Pittsburgh, as said board may from time to time be composed.

On December 18, 1900, at a meeting of the Board of Trustees of the Carnegie Institute a committee of five members of the board was created, known as the Committee on Plan and Scope of the Educational Organization to study the subject of schools of technology and report thereon at a future day. On February 16, 1903, this committee submitted a report to the board containing their recommendations in detail and the report was approved by the board. It has since been approved by Mr. Carnegie. It is the desire of Mr. Carnegie and of the Board of Trustees to modify and enlarge the scope of these technical schools from time to time to meet the growing needs of the City of Pittsburgh:

In summarizing their suggestions the committee said:

"We have, therefore, prepared courses of instruction to do the following:

First, Courses that will impart skill and intelligence to young men so as to increase their earning capacity, lift their standard of labor from the unskilled to the skilled, and raise them socially to a higher level.

"Second, Courses that will give to those of greater intelligence and natural ability a more thorough course fitting them, after proper experience, to direct the skilled labor, and to fill that great

class of middle positions below the engineer and general manager, but above the skilled mechanic.

"Third, Courses that will give to young men and young women who have some taste and ability for art a training in the application of art industry, enabling them to turn such talent to the best advantage.

"Fourth, Courses that seek to give to the constantly increasing number of women who must earn their living by their own labor the same opportunity that is given to men to increase their skill, their technical knowledge and their judgment and intelligence, and thus lift their work to a higher standard, increase their opportunities for employment and broaden their field of usefulness."
